### STARS COMPETE BUT NO RECORDS ARE BROKEN

San Francisco, Oct. 23.—The field and track meet in connection with the Portola festival was held yesterday, many athletes of national reputation competing. No records were broken, although fast time was made in all events. The feature of the day was the defeat of Smithson, winner of the 120-yard hurdles in the Olympic games at London, by Edwards of the University of California, who equalled Smithson's London time of 15 1-5 seconds.

### EXPECT TO DEFEAT ALL

Weber Academy, Under Hard Work by Coach Harker, Counts on Basketball Title.

The Weber academy basketball team is preparing for a season of hard work, which they think will culminate in having the team winners of the state basketball league. Last year the academy team was beaten out of the honor by the Lehi High school team, but as some of last year's players are back this year, and as there is a large amount of good material to work with, the positions which are not filled by experienced players now, will be by the end of the season and the chances are that a winning team will be developed.

Coach Harker is going through daily a hard grind, giving them only such exercises as will develop good speed and endurance. As yet very little attention has been paid to tricks and plays.

Of last year's men, George Burton, Clyde Clark and Malcolm Watson are back in the game this year, and they are speedier and steadier than they were last season. Other prospective candidates for first team honors are Howell Roberts, Lawrence Greenwell and A. McKay. There is a beautiful fight on for the center position, and it

## The Mission

Of those corpuscles in your blood that have been called "Little Soldiers," is to fight for you against the disease germs that constantly endanger your health. These corpuscles are made healthy and strong by the use of Hood's Sarsaparilla.

This medicine is a combination of more than 20 different remedial agents in proportions and by a process known only to ourselves and it has for thirty years been constantly proving its worth. No substitute, none "just-as-good."

### A Reliable Remedy FOR CATARRH

Ely's Cream Balm is quickly absorbed. Gives Relief at Once. It cleanses, soothes, heals and protects the diseased membrane resulting from Catarrh and drives away Cold in the Head quickly. Restores the Senses of Taste and Smell. Full size 50 cts. at Druggists or by mail. Liquid Cream Balm for use in atomizers 75 cts. Ely Brothers, 56 Warren Street, New York.

is a toss up as to who will win out, Greenwell or McKay.

Last Friday an election was held and George Burton was made captain of the team. He plays the forward position, and Harker thinks there is no one in the state in the High school class, who is his equal.

Coach Harker is going through daily training stunts with a bunch of wrestlers at the school, and he expects to capture the prizes in the lightweight divisions in the state wrestling tournament this winter. In Harris, Harker thinks he has the best wrestler in the state in the 145-pound class, and he is expecting great things from the lad this winter.

### LATONIA RESULTS.

Cincinnati, Oct. 23.—Four favorites and two well played second choices won at Latonia today. A worse day for racing could hardly be imagined, rain causing spectators any amount of discomfort and adding to the heaviness of the track. Howdy Howdy won the feature race by a half-length from Duquesne. The attendance was the smallest of the meeting. First race, seven furlongs—J. C. Oats, 2 to 10; won; St. Aubaire, 10 to 1, second; Peter Pender, 4 1/2 to 1, third. Time—1:31.4. Second race, seven furlongs—John E. Baltimore, Oct. 23.—The fall meeting of the Maryland Jockey club today opened most auspiciously with a large attendance and good sport. The inaugural steeplechase, the feature of the day's card, was a disastrous affair, eight of the field of ten going down. Three remounted and finished. The event went to Stollander. The Baltimore Cup cup, an affair of gentlemen jockeys, went to Bobbys Taylor on Jolly in a pretty race. Jack Atkin, the crack sprinter, made his appearance in the opening race and led the track record for six furlongs of 1:12 1-5, and was merely galloping at the end.

### SECOND GAME TODAY.

The second game for the world's series title of Buena Vista will be played today between the jockeys and the valets. The game will be played on the Buena Vista diamond, with another large gallery as

sured. Umpire Fitzgerald will call play ball at 2 p. m. The probable batteries are: Jockeys, Wickens and Davis; valets, Brady and Smith.

### GRIFFITH MAKES CUBS FAVORITES FOR ALL-STAR

Cincinnati, O., Oct. 23.—Four Chicago players have been picked by Manager Clarke Griffith as material good enough for an all-American team. They are pitchers Brown and Overall, shortstop Tinker and Second Baseman Evers of the Cubs. He leaves off Hans Wagner and Ty Cobb in favor of Tinker and Mike Mitchell of Cincinnati. Another star, Catcher Gibson of Pittsburgh, is left off the Cincinnati manager's team in favor of "Larry" McLean, whose base throwing is said by Griffith to be far better than Gibson's. The other players selected are First Baseman Chase of the Highlanders; Devin, Third Baseman Leach of the Pirates, and Speaker, centerfielder of the Puritans. Should this team be taken, says Griffith, it would be better than "Pop" Anson's selections.

### TIGER STARS TO STAY WITH TEAM NEXT YEAR

Detroit, Mich., Oct. 23.—Hugh Jennings today signed a contract to continue as manager of the Detroit club during the season of 1910. It was understood the manager's demand for an increase in salary was compromised.

### MUCH INTEREST TAKEN IN PLAN

Washington, Oct. 23.—The social and industrial conditions in the United States demand that industrial education for rich and poor alike should be democratic. This conclusion was reached by many prominent leaders of working men and industrial educators, addressing the American Federation of Labor's committee on industrial education today.

Suggesting that European countries were far ahead of the United States in the matter of fitting young girls and boys for a trade, Charles F. Richards of New York City, originator of the National Society for the Promotion of Industrial Education, argued that the committee should fight for a plan that would relieve the American school boy of the confusing plight of not knowing what to do when turned away from school.

He declared more than one-fourth of the boys left the public schools in New York before graduation because they "were sick of it." This, he regarded as due to the lack of industrial training.

President James Deane of the Federation strongly endorsed the proposition of introducing industrial training into the last grades of the grammar schools.

## TILLMAN WINGS ONTO TEN SPOT

Willing to Meet President, but Objects to Paying for Luncheon.

Columbia, S. C., Oct. 23.—Because he was asked to pay \$10 for a plate at the luncheon which will be given to President Taft on the occasion of his visit to this city Nov. 6, Senator B. R. Tillman has declined to attend, and states that he may not serve on the reception committee. Senator Tillman says that while Columbia is to be the nominal host of the president, the city expects the state at large to pay for the president's entertainment. Senator Tillman makes these statements in a letter addressed to the secretary of the chamber of commerce, who wrote Mr. Tillman, asking if he would attend the luncheon. Mr. Tillman goes on:

"This may be a new way of conducting entertainments in South Carolina that will find favor in the future, but it is wholly contrary to all the ideas of courtesy and hospitality that I ever heard of in this state, and I do not propose to lend my aid or countenance to it."

Mr. Tillman, in concluding his letter, says:

## HARRIMAN WAS IN SYNDICATE

American Capitalists Sought Control of Railways in Manchuria.

St. Petersburg, Oct. 23.—Russian and foreign diplomatic circles ascribe great importance to the meeting at Harbin on Oct. 23 of M. K. Kokovtsov, Russian minister of finance, and Prince Ito, president of the privy council of Japan, although the exact motives of the meeting are not known. The subjects to be discussed were not suggested in the Japanese invitation to meet. Prince Ito, however, political questions. He said that he was coming to discuss only financial and technical subjects, those covering the status of the Manchurian railroad, which have proved such a financial

Russian statesmen are seriously considering the sale of Russian railroad interests in that territory. The Japanese proposal to purchase the portion of the railroad remaining in Russia's hands might be entertained by Russia, owing to internal complications, but although it is understood that Japan is ready to make tangible offers, the Russian government is disposed to look with favor on a proposition for the sale of the Manchurian lines to China, financed by an international syndicate, or to such a syndicate direct. It is authoritatively stated that the Russian government is not inclined to look with favor on the group of financiers, with which E. H. Harriman was connected, but these have lapsed since Mr. Harriman's death. The railroad which may be sold include both the main line and the southern branch from Harbin to Port Arthur. The Russian title runs for about thirty years, after which it passes to China. Only negotiations for the transfer of title before date of expiration, both Russia and China having agreed to this principle.

The placing of the North Manchurian railroad under foreign financial control would have far-reaching political consequences, as it would virtually create a buffer state to safeguard the political integrity of Manchuria until China is strong enough to assert herself. The meeting at Harbin was arranged when M. K. Kokovtsov was unable to accept an invitation to go to Japan.

Greatest bargain ever offered. Two hundred long fur coats and fur sets, on sale one day only, Monday, Hamilton's.

## FERRER'S DEATH POTENTIAL FACTOR

New Spanish Cabinet Has Announced a Policy of Pacification.

Madrid, Oct. 23.—Following the session of the cabinet last night an official communication was issued announcing that the cabinet proposed to follow a policy of pacification and liberty.

It is understood that among the specific decisions arrived at was one to submit the religious orders engaged in industries to the operations of the common law. The excitement over the execution of Ferrer continues.

Francisco Ferrer was recently executed at Barcelona, Spain, as a leader of the revolutionists of that country. The charge upon which he was convicted was instigating the uprising at the time the Spanish troops were ordered to the Riff coast in Morocco, but the government has long considered him an anarchist, and he had been often accused of teaching anarchy in the schools and through the medium of the public press. Ferrer professed to be a socialist and was strongly opposed to the existing order of things in Spain, especially the strong alliance between the vatican and the Conservative party.

As a result of Ferrer's execution the cabinet of Premier Maura has fallen and the Republicans are again in power, and the cause of socialism in Europe has apparently been strengthened, great gains having been made by them in the recent election of members of the German Reichstag. Professor Ferrer was never so dangerous in life as in death.

## If It Disappears, It's Eczema

How to Tell Whether a Skin Affection is an Inherited Blood Disease or Not.

Sometimes it is hard to determine whether a skin affection is a sign of a blood disorder or simply a form of eczema. Even physicians are often puzzled in their diagnosis. The best way for any one afflicted is to go to the F. J. Hill Drug Co., or any good druggist who handles pure drugs and obtain 50 cents' worth of postum. Apply this, and if the itching stops at once and the trouble is cured in a few days it may be set down as having been eczema, as this is the way postum acts in the worst case of eczema, and in curing acne, herpes, blotches, tetter, piles, salt rheum, rash, barber's and other forms of itchy, scaly scalp, and all surface skin affections.

Any one who will write to the Emergency Laboratories, No. 23 West Twenty-fifth street, New York, will receive, by mail free of charge, a supply sufficient to cure a small eczema surface or clear a complexion overnight and remove pimples in twenty-four hours.

## DANCED ON THE HARD ASPHALT

San Francisco Made the Most of the Last Night of the Festival.

San Francisco, Oct. 23.—San Francisco's streets were one vast ballroom tonight, and the flying feet of thousands of dancers made the hard asphalt seem like springing spruce as they glided through waves of confetti at the seven station floats, from which as many hands sent forth strains whose dying echoes marked the close of the Portola festival.

Almost a million people crowded the sidewalks as the parade of illuminated floats passed in review. In these floats San Francisco outdid her reputation for love of pageantry. One of them weighed upwards of 120,000 pounds. California's history from the discovery of San Francisco Bay by Portola to the discovery of gold were set forth in graphic scenes.

One of the most striking scenic floats was that showing the Yosemite, with its frowning cliffs, over which real water fell in cataracts. The discovery of the north pole, with both Peary and Cook nailing the flag to the "great wall," had as decorations huge cakes of ice, in which were frozen fish and green streamers of smilax, the whole illuminated by 1,500 incandescent lights.

Until the parade had passed the crowd was confined to the sidewalks by wire cables, but the moment it escaped its bounds Market street was filled from wall to wall with a throng of confetti throwing, cheering and laughing people, determined that the carnival should be prolonged while they had breath.

## COLD WEATHER PREDICTED

United States, From Coast to Coast, About to Experience a Severe Storm.

Washington, Oct. 23.—Cold weather is about to grip the country from coast to coast. The sheet of rain that swept across the United States radiating from a storm center near St. Louis, has passed along until it is sweeping down upon the middle Atlantic coast. The disturbance is expected to pass out to sea, after which the wind will sweep the country from the north, varying a trifle, according to the section.

In the far northwest the temperature is rising just enough to hold out hopes for a short duration of the chilly spell. Just east of the Rocky mountains, however, the mercury is falling, with the exception of the middle Atlantic and the south Atlantic coasts.

High winds will be the rule, according to the weather bureau.

## INVESTIGATION ORDERED.

Basin, Wyo., Oct. 23.—At the urgent request of both prosecution and defense, in the Tensleep murder cases, in which seven prominent cattlemen are charged with the murder of three sheepmen—Joe Allemand, Joe Enge and Jules Lazier—Judge Parmelee has ordered an investigation of the grand jury box and jury list. It is charged that eighty-two names were erased fraudulently from the jury list and abstracted from the jury box.

## AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis.—"Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. EMMA LMSR, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.
